The e-Spotlight gives students, faculty, and alumni a peek into what's going on in the college.

STAND OUT WITH MICROSOFT OFFICE SPECIALIST (MOS) PROGRAM

Microsoft Office Specialist (MOS) certification is a premier credential that demonstrates that you have the skills needed to get the most out of Microsoft Office applications. In other words, the certification guarantees that you understand the full features and functionality of Microsoft Office. It also proves the holder's readiness for future academic or job opportunities and can guarantee you a higher pay than your uncertified peers.

Owing to its project-based approach to testing, the certification gives students and professionals real-world exercises to assess their understanding of Microsoft Office tools. After completion, the students are therefore fully prepared for the world of work and further studies.

The structure of MOS is student-friendly since for every exam passed, there is a certification. By passing all the first 3 exams, the student earns a Microsoft Office Specialist (MOS)-Associate certification which is a qualification recognised globally as a testament of digital and computer literacy skills. For those who would like to earn the Microsoft Office Specialist (MOS)-Expert certification, studying two more modules would enable them to achieve this goal

The world is changing at an unprecedented pace and demand for technology-savvy professionals is undoubtedly on the rise. For this reason, tech-savvy graduates are being sought left, right and centre by employers.

At Oshwal College, we have a teaching faculty with years of hands-on experience in the delivery of computer-related certification courses. We are also an accredited Certiport Test Centre; meaning our ability to deliver the MOS certification is unrivaled. Enrolment into this program is open to anyone seeking to be relevant in the digital era. Whether in high school, college, university or in the workplace, MOS will offer you the skills needed to meet the demands of work and study in the 21st century.

CONGRATULATIONS TO OUR MOS TOPPER IN KENYA!
